

The purpose of the first annual ISNAF colloquium is to unite key leaders in the Parental Alienation Community and create an organized drive to change the system that currently allows emotional harm and abuse to children by alienation.

### Our Mission at ISNAF

“Support families and child victims impacted by the alienation dynamic.”

### Vision Statement

The ISNAF organization, through its strong network of volunteers, donors and partners, is here to:

- Provide support, education, and resources to families affected by the alienation dynamic;
- Advocate for change in the legal, mental health, and judicial system; and,
- Ultimately eliminate the existence of parental alienation which is child abuse.

**Note:** ISNAF is honored to have such a group of doctors, researchers, and legal experts willing to donate their time (their typical fees are \$2,500 to \$15,000 per day). These participants are grateful to unite for the pursuit of eliminating this form of emotional harm to children resulting from parental alienation.

The donations that are collected to fund this colloquium will be used to cover the costs of this three (3) day event. ISNAF is a volunteer based 501 (c) 3 organization, therefore, your donation is tax deductible.

Please make your check payable to ISNAF.

The objective of this gathering is to bring together world-class professionals, including judges, doctors, scientists, and mental health experts to provide the dynamic necessary to:

- Establish common terminology (specifically words to describe conditions and events), used in parental alienation and custody issues;
- Set and work on goals to create short term and long term solutions;
- Identify problems within the current legal systems to drive change within them; and,
- Identify successful treatment programs, proliferate those programs, and seek innovative and economical programs for treating the alienation dynamic.

**Linda Gottlieb** (NY) LMFT-LCSW Family Systems Therapist trained by world renowned Dr. Salvador Minuchin. She has over thirty years of experience with problems/symptoms/crisis intervention for families and couples. She is a published author of numerous articles and books, an expert witness, guest on radio/TV, and conducts workshops for mental health professionals.
